

DISCOVER THE IMARI

Destress and switch off from today's faced pace world the moment you step inside the Imari. This single level intimate home features unusual and distinguishing design features that are unique to our Zen Range of homes. The Imari creates a soft, soothing environment with the purposeful use of tonal colours that are warm and earthy and induce a sense of calmness and relaxation. A structured garden grow wall and a built-in planter box complete with an overhead cut out roof enhances the visual aesthetics of the home and provides for a different source of natural light. At the heart of the home lies a combined kitchen and living area, a large operable space that connects to the natural elements with a strong focus on indoor / outdoor multi functional and versatile living arrangements. The seamless transition from natural timber floors to timber decking allows the owner to maneuver a mobile Kitchen Island Bench from the kitchen to the outdoor alfresco area easily and effortlessly to suit personal preferences or varying climatic conditions. Not apparent from the house frontage is the way in which the landscape naturally falls away from the house further adding to the lightness and airiness of the home and providing uninterrupted views from the back deck across the garden and neighboring parkland.

Other Design Options

At Eco Essence Homes we understand that you may want to tailor your home to suit your needs with optional Eco Essence Homes extras or custom design requirements.

Build with Comfort
