

DISCOVER THE TAO

The Tao is an entertainer's dream that spans over 3 levels of deluxe living in a fabulous family layout. With a spacious open plan kitchen flowing onto the dining, living areas and outdoor deck it makes it easy for the family to socialize and enjoy each other's company. Whilst this home is incredibly stylish it affords the family a place of sanctuary where members have the opportunity to retreat and unwind in various Zen zones integrated throughout the home to promote relaxation. The multi-purpose room is adjoined by a secluded and private rooftop patio screened by a garden grow wall that paths the way to a secondary sizable rooftop garden terrace with views over the surrounding neighborhood and inviting gardens. The exterior of the home has been faultlessly finished by a generous array of coordinating stone and timber cladding. Broad rich use of natural timber accents internally adds warmth to the cool tones of the polished concrete floors and trending moody greys which are offset by the ambience of a two-way natural gas fire place that defines the kitchen and living areas. A striking open tread natural timber staircase with clear glazing makes it appear as if the stairs are suspended in space. They perfectly align the wall to create an open void between the first and second floor and showcases the generous and oversized windows that are operable, permitting cool air to flow freely throughout the home and drench the home in sunlight. You will be guaranteed to live a life of quality and sheer comfort with a sense of tranquility in the Tao home.

Other Design Options
