

## DISCOVER THE WOOLAMAI

The Woolamai home design creates a breathable space for ideal home living and entertainment, softly inspired by the traditional pacific bungalows. Thoughtful North orientation allows optimal sun exposure into the yard and natural lighting to stream into the main living spaces. Upon entry you are met with a dividing wall, perfect for displaying beautiful artwork, and then welcomed straight into the main living and entertainment space. This single storey has three carefully situated bedrooms that are divided by an internal courtyard; an exquisite touch that brings the essence of nature into the heart of this pacific home. The master has a framed window with lush views of the courtyard and also has access to an ensuite, its own private deck, and adjacent views across the backyard. The installation of a deck that wraps around the exterior expands the internal space and creates a seamless transition to from indoor to outdoor living. Ultimate cross flow ventilation is achieved with thoughtful window mapping and carefully situated internal walls, creating a continual parallel flow of air through the home. The Woolamai is functional for summer activities with bi-fold doors open, and a warm cosy room that can be shut off to enjoy warmth fireplace during winter. An ample sized walk in pantry and functional kitchen layout makes it the ultimate entertainment space. The exposed rafters, weatherboard cladding, and pitched gable ceilings and utilising natural thermal mass and ventilation directly reflect the architectural natural of the traditional pacific bungalow homes.

### Other Design Options

At Eco Essence Homes we understand that you may want to tailor your home to suit your needs with optional Eco Essence Homes extras or custom design requirements.

### Build with Comfort

Discover how enjoyable your design and building experience can be with Eco Essence Homes. Contact us today to book in for your free design and build consultation.
